Sanitation Cloud™
Touch-Free Bulk Gel Sanitizer Refill Instructions

Gel Sanitizer 1-Gallon Refill Instructions:

1. Identify your Sanitation Cloud™.

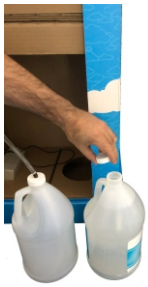
2. Go to the back of unit.

3. Pull up and unlock the top from left side as shown.

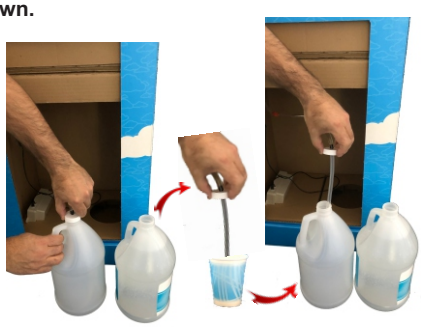
4. Remove back cover as shown.

5. Remove empty sanitizer bottle from bottle holder.

6. Get replacement sanitizer bottle.



7. Open replacement sanitizer bottle.



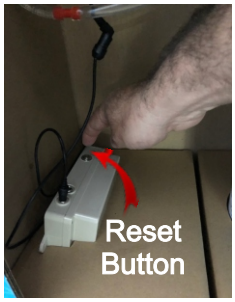
8. Remove cap with hose from empty sanitizer bottle.

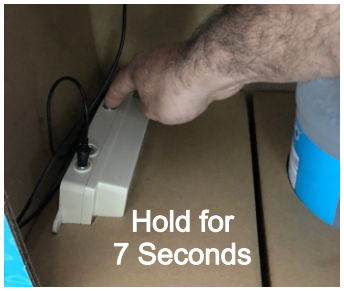
9. Install cap with hose into new sanitizer bottle.

Note: Initial priming must be done using water. Insert cap with hose from empty sanitizer bottle into a cup of water and prime the system until water comes out of spout (follow steps 11 & 12). Once that happens remove cap with hose from cup of water and insert into new sanitizer bottle.

10. Install new sanitizer bottle into bottle holder as shown.

11. Place a small cup on the drip tray in front of the spout.





12. Locate reset button on the battery pack and press the reset button down for 7 seconds to prime the new sanitizer.

Note: You may need to prime the sanitizer multiple times until sanitizer comes out of spout and into the cup in front of it.

13. Re-install back cover as shown.

14. Lock top back into place as shown.

15. You are now ready for use.
